TO MAKE REPORT ON MASON VALLEY

Naley company is in progress, and arrivation progress, and arrivation on the smelter construction are being pushed in all de partiments, according to Engineer Liew Humphreys, who has just returned to Engineer Liew Humphreys made a thorough examination of the Mason Valley mins. He is the control of the Mason Valley mins. He is the control of the Mason Valley mins. He is the control of the Mason Valley mins. He is the control of the Mason Valley mins. He is the deal of the Mason Valley mins. He is the control of the Mason Valley mins. He is the control of the Mason Valley mins. He is the deal of the Mason Valley mins. He is the control of the Mason Valley mins. He is the deal of the Mason Valley mins. He is the deal of the Mason Valley mins. He is the control of the Mason Valley mins. He is the deal of the Mason Valley mins. He is the control of th

Just before going to Yerington Mr. Humphreys made a trip through Arizona, which included a visit to the W. H. Clark Silent King property. There he found the bottom of the shaft in a body of high-grade gold ore, which has increased in size so rapidly with depth that there can be hardly a question that a mine of unusual richness is to be opened. It is apparently a big cyaniding project, with enough high-grade to make shipping an interesting side issue.

MINES OF ALTA CAMP INCREASE SHIPMENTS

With ore shipments being made at a heavier rate than for a long time past by Columbus Consolidated, South Columbus and a half dozen leases upon various properties, with the City Rocks company resuming operations and with an unusually large number of the newer properties being worked. Alta camp is displaying a degree of new life somewhat in keeping with its rich promise for the future.

Some day some of the big mines of the country will be opened at depth in Alta. Then it will be provided with transportation facilities which will make profitable the working of properties which are now operated with indifferent success. Just now some of the Alta operators are complaining that With ore shipments being made at a

different success. Just now some of the Alta operators are complaining that they are not given the chance that they rhould have in the matter of delivering ore to market, if only the work to which the heavy traffic of the summer months entitles it were performed up-on the road in Little-Cottonwood canyon. Relatively little well directed labor and improvements would, it is urged, place the road in excellent condition, whereas in places it is almost impassable for heavy loads.

ELY-GOLDFIELD EXPERT **EXAMINES HAMILTON**

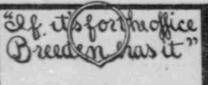

Ely, Nev., July 21.—That Hamilton is considered as a prospective point on the Ely & Goldfield railroad is evinced by the thorough inspection of the old sil-ver camp that is being conducted by W. G. Luckhardt, the tonnage man for that

Mr. Luckhardt has been spending the Mr. Luckhardt has been spending the last two months at Hamilton sampling the old workings on White Pine moun-tain, and has prepared an elaborate re-port for the directors of the new road, howing the results of his observations

in that vicinity.
It is known that Mr. Luckhardt is well pleased with the future prospects of Hamilton. Believing that the ore of Hamilton. Believing that the ore tonnage which the Hamilton district is capable of producing is sufficient to entitle consideration from the railroad officials, it is said that Mr. Luckhardt will recommend that the old-time silver camp be provided with railroad facili-

SCHANTON IS ASSURED OF LONG PRODUCTION

While the Scranton mine, in North Tintic, has for a number of years been a pretty steady producer of zinc and lead ores which have brought good returns, Manager N. A. Dunyon, after having visited the property the first of the week, says that it is looking now, more than ever before, like a long-lived producer. The new disclosure in the Del Monte tunnel is proving up handsomely, the tunnel having been driven something more than 80 feet entirely in ore. It is unquestionably the same ore body that has been opened in another tunnel 200 feet deeper on the yein, where it has been crosscut for a another tunnel 200 feet deeper on the vein, where it has been crosscut for a width of 25 and 30 feet. A raise from the Del Monte tunnel shows that the ore is going upward strong. The ore being of shipping grade as it is broken down, the showing is one which tells of profitable mining for a long time to

UNLISTED STOCKS.

Trading in Opex was not so her yesterday as upon previous days of the week, but much of the buying appeared to be from inside interests. Unconfirmed reports in relation to the strike are generally favorable, although there is said to be no new development, work having been irransferred to a new level The stock was relatively strong, with sales of 16,800 shares at 48c to 54c. The only other unlisted issue which was traded in was Uintah Treasure Hill, of which 1,000 shares were sold at 8c. Closing quotations:

ORE AT SAMPLERS. Eight carloads of ore, all from Utal mines, were released yesterday by the Utah Ore Samuling company.

sampler requires no ditention further than periodical visits to collect the samples and take them to the assay office for testing.

NEVADA HILLS SHIPS THREE CARS HIGH-GRADE

Reno. Nev., July 21.—Word has reached Reno from Fallon that the first three cars of ore from the Nevada Hills mine have reached Fallon, and that the ore has been shipped from that point. It is also stated that the ore will average \$700 a ton, and that at the present time there is more than \$3.000.000 worth of ore in sight in the mine.

This is the first shipment made from the Nevada Hills since George Wingfield and his associates formed the the Nevada Hills since George Wingfield and his associates formed the
combination of the Nevada Hills and
Fairview Eagle, and it will be followed
by many more. The Nevada Hills is
now being actively worked, and according to men who have inspected the
property, it will become the second
greatest mine in Nevada. They state
that the ore fairly glistens with silver,
and that there seems to be an unmeasand that there seems urable quantity of it.

COPPER SHARE MARKETS SAYS OHIO COPPER U.S. SMELTING TO RESULTS ARE FINE OWN E. & P. RAILWAY

of mining was 70 cents a ton, but Mr.
Frank says the mining is now being done actually under 50 cents a ton.
Costs in May were 51 cents a ton for mining. The conventories a ton for the conventories at the conventories of the conventories at the conventories of the conventories at the conventories of the c

of itself almost guarantees the thoroughness of the work done in this in-

The work includes not only a directory of mining companies operating in Utah. Nevada, Idaho, Montana, Callfornia, Arizona, Colorado and prominent ones operating in other states, grouped under the heading of miscellaneous, but it likewise contains directorics of accounts.

UTAH-WYOMING GETS NEW OIL INDICATIONS

Local officials of the Utah-Wyoming olidated Oil company, operating in the Byron (Wyo.) field, were advised yesterday that the last 105 feet of the company's new well had been entirely in greasy shale—an indication which causes not a little new interest to be taken in the operation. A well which is being sunk in a tract adjoining the one in which the Utah people are sinking has at 910 feet depth a heavy pressure of gas. It had been expected that a depth from 1.200 to 1,400 feet would have to be attained before big results would be forthcoming, but present indications are such that the encountering of an oil flow at any time would not be surprising.

BOSTON-MONTANA TO PAY DOUBLE DIVIDEND

New York, July 21 .- Directors of the Boston & Moniana Copper company, a subsidiary of the Amalgamated Cop-per company, today declared a dividend of \$2, which is an increase of \$1 over the previous quarter. The regular dividend of 50 cents was declared on the stock of the Amalgamated Copper company.

UTAH UNITED ORE IS RICH. Samples of the native copper ore re-Samples of the native copper ore recently encountered in the property of the Utah United Copper company, operating in Beaver Lake district, were received yesterday by J. M. Reynolds. The pieces of rock are thoroughly impregnated with the glistening red metal. The strike was made on the 400-foot level, and there is said to be a two and a half-foot streak of the rich stuff in a large body of material of lower grade. A drift is being run to open it on the 600-foot level.

NATIONAL LEAD CUTS DIVIDEND. New York, July 21.—Announcement was made today by the directors of the National Lead company that they had declared a dividend of three-fourths of one per cent on the common stock, a decrease of one-half per cent over the previous dividend declaration. The quarterly dividend of one-fourth per cent was deciared on the preferred

On the news of the reduction of the dividend the common stock broke from 68 to 52, then rallied to 54.

eral supervision of Ohio Copper com-pany's affairs during the absence in Europe of General Manager Colin Mc-Eureka & Palisade railroad is indicat-

mining. The concentrating costs run for from 38 to 40 cents a ton, and these costs also include all charges for management and office expenses.

The concentrates are being shipped to the Garfield smelter of the American Smelting & Refining company and are.

The suit which has been brought in

The concentrates are being shipped to the Garfield smeiter of the American Smelting & Refining company, and are regarded as exceedingly desirable for the smelter to operate on. The smelter people say the concentrates are the best ever received, or ever put out anywhere.

Transportation from the mine to the mill is through the Mascotte tunnel owned by the Bingham Central Railway company, controlled by Mr. Heinze, It is figured that there are 12,000,000 tons of ore above the Mascotte tunnell, in that porition of the property that has been developed.

The Ohio is producing at the rate of Liu, County of Sait Lake.

Directory of Mines and Allied Interests
Fills Want.

Something of which the mining public of Utah and the west has felt the need for many years—a comprehensive directory of mines and mining interests—has just been provided by the Mines Directory company of this city. The work was compiled by Ray T. Harris, who has had a great deal of experience in work of that character, and which of itself almost guarantees the thoroughness of the work done in this in stance.
